

English translations of the package leaflets of non-prescription medicines now available in the register of medicinal products

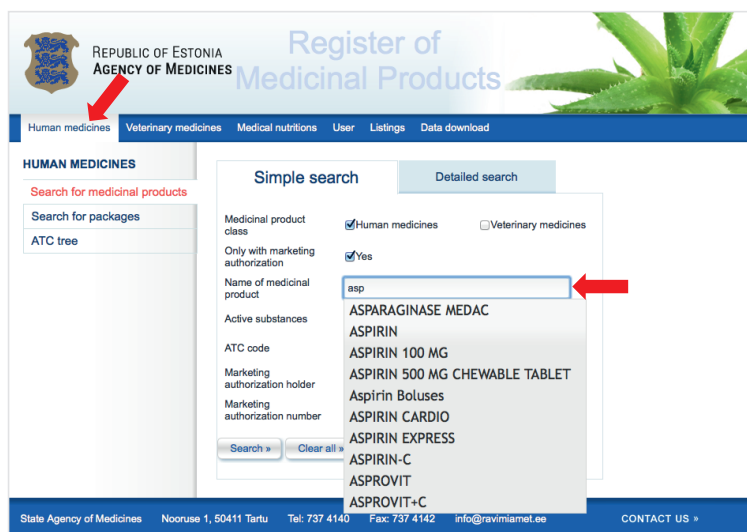

The package leaflets include the following information: what the medicine is and what it is used for, what you need to know before using the medicine, how to use the medicine, possible side effects, how to store the medicine, the contents of the package, and other information.

If you would like to find the English translation of a package leaflet from the register of medicinal products, do as follows:

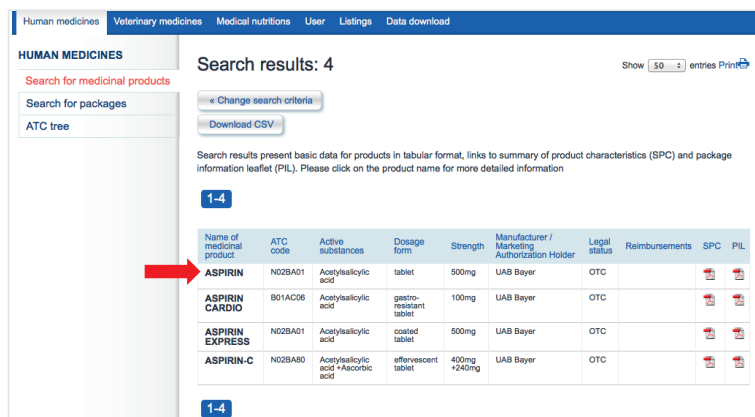

- ✳ Go to the website of the State Agency of Medicines at www.ravimiamet.ee and click on the link **"Find medicine"**.

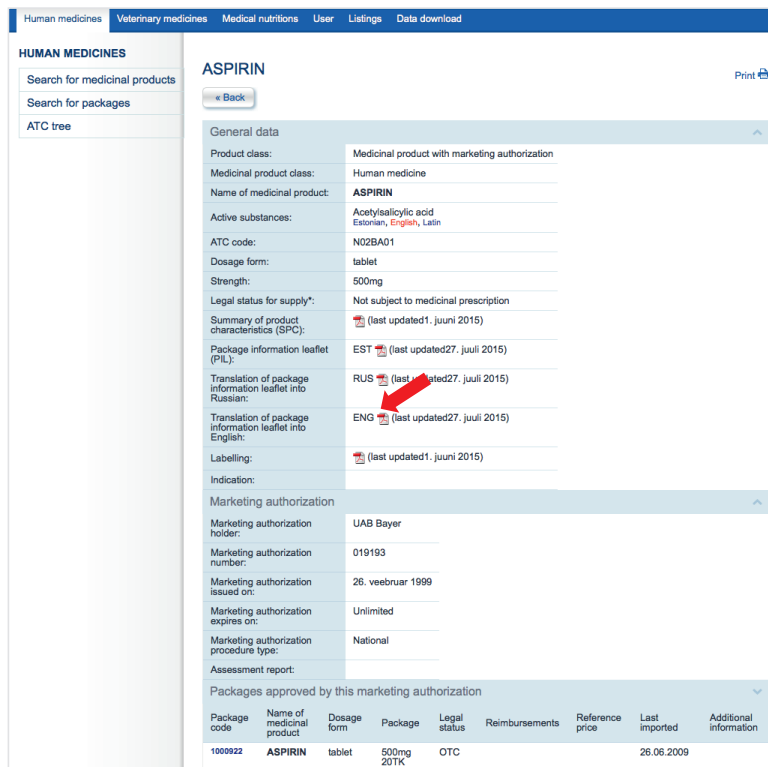

- ✳ This will take you to a page where you need to click on **"Human medicines"**.
- ✳ Enter the name of the medicine found on the package of the medicine. The register will offer possible results when you have entered the first few letters – choose the right one (see the image).

- ✳ Then, click on **"Search"**. A list of names of medicinal products will appear.
- ✳ Click on the name of your choosing.

- ✳ This will open a view with more detailed information about the medicine. To open the package leaflet, click on the  icon in the field **“Translation of package information leaflet into English”**.
